

HARSHA PEDDINTI

Lead Product Designer (UI/UX) & Front-End Developer

Bengaluru, India • (+91) 8639785427 • harsha.peddinti123@gmail.com • harshapeddinti.in

PROFESSIONAL SUMMARY

Lead Product Designer with 9.2 years of experience driving 0-to-1 enterprise B2B SaaS solutions across HR Tech, AI, and Healthcare. Combines deep UX design expertise and front-end development to architect scalable multi-platform design systems, embed Generative AI capabilities, and optimize growth metrics via data-driven interaction design.

CORE SKILLS & COMPETENCIES

Design & UX Strategy: Interaction Design, Rapid Prototyping, Design Systems Architecture & Governance, Product-Led Growth (PLG) Strategies, UX Research, Usability Testing, Data Storytelling, DesignOps & Team Mentorship.

Generative AI & Emerging UX: GenAI Workflow Integration, Conversational UX Design, AI Recommendations & Nudges, Google PAIR and Microsoft HAX Frameworks, AI Prototyping.

Tools & Platforms: Figma, Adobe Creative Cloud, Storybook, Claude, v0, Antigravity.

Technical Stack (Feasibility): Next.js, React, Tailwind CSS, Web DOM Architecture & UI Animations.

TOTAL WORK EXPERIENCE (9.2 YEARS)

Lead Product Designer (UI/UX) — [Mesh.ai](#)

Jun 2022 – Present (4 yrs 2 mo)

- **Design System Architecture:** Spearheaded the end-to-end creation, documentation, and governance of a comprehensive enterprise design system, ensuring visual consistency, component efficiency, and multi-platform scalability.
- **Product Growth & Revenue Impact:** Owned design strategy for two primary products and overarching platform analytics, driving **5.91% of ARR** and acquiring **1890+ new enterprise seats**:
 - **Reviews Product:** Redesigned performance review workflows for employees and admin calibration tools for leadership. Achieved a **34% net improvement in overall usability (Task-Success)** and a **17% point increase in user feedback**. [Read more here](#).
 - **Engagement Product:** Designed continuous employee pulse and survey channels, boosting customer Net Promoter Score (NPS) by **4%**.
- **Generative AI Integration (Maven):** Pioneered interaction models for Maven (GenAI assistant) within performance and engagement workflows. Enabled automated feedback drafting, tone adjustment, and real-time guidance, yielding a **60% reduction in feedback completion time** and a **215% increase in feedback quality**. [Read more here](#).
- **Persona Insights & Executive Dashboards:** Designed tailored data visualization tools for Buyers and People Managers featuring prevalence and outcome metrics, boosting overall platform engagement by **6%** and driving a **2% sales uplift (640+ enterprise seats)**.
- **People Analytics:** Designed organizational network mapping tools to visualize informal social connections and hierarchy structures, unlocking strategic cultural and collaboration insights for C-suite leaders.
- **Cross-Functional Leadership:** Collaborated with Product Managers, Engineering, Customer Success, and C-level executives to align UX roadmaps with business objectives; spearheaded regular design reviews to uphold design quality.

Senior Product Designer (UI/UX) — [Hypersonix.ai](#)

Feb 2020 – Jun 2022 (2 yrs 5 mos)

- **Design System Evolution:** Developed, scaled, and maintained cross-platform style guides and responsive design systems across Web and Tablet interfaces.
- **Product Strategy & Flow Mapping:** Partnered with Product Leads and Engineering teams to define core requirements, product roadmaps, behavior strategies, user flows, and visual identity.
- **Micro-Interactions & UI Research:** Researched emerging UI paradigms and established motion/animation guidelines to elevate product feel and interactive feedback.
- **Usability Validation:** Conducted end-to-end usability testing, affinity analysis, and user research to refine complex enterprise workflows.
- **Conversion Optimization:** Managed UX/UI design strategy for growth marketing assets, resulting in enhanced Conversion Rate Optimization (CRO) and increased platform traffic.

Product Designer (UI/UX) — Zealth

Aug 2018 – Feb 2020 (1 yr 7 mos)

- **Subsidiary Digital Launch:** Executed end-to-end UX/UI design and web deployment for child entities (Findem.ai and Bridged.co), conducting heuristic evaluations, user flows, wireframing, and visual design.
- **Core Product Redesign:** Led complete overhaul and launch of Zealth's web platform, establishing clear identity guidelines and optimized conversion flows.
- **Product & Brand Suite:** Designed and successfully deployed 30+ live health and wellness products on Amazon and Shopify alongside supporting sales and marketing collateral.

Graphic Designer — Nearbuy.com

Sep 2017 – Aug 2018 (1 yr)

- Designed high-converting brand identity assets, marketing collateral, and digital interfaces using Adobe Creative Suite.

Freelance Web Developer — Lincode Labs

Dec 2017 – Jan 2018 (2 mos)

- Designed and developed responsive login interfaces and web portals utilizing Bootstrap, HTML5, CSS3, and Adobe Suite.

EDUCATION

B.Tech in Computer Science & Engineering — VIT University (Vellore, TN)

2013 – 2017

Relevant Coursework: Object-Oriented Programming, Internet & Web Programming, Data Structures & Algorithms, Algorithm Design & Analysis, Visual Design Fundamentals, Theory of Computation.

RESEARCH & PUBLICATIONS

- **Usability Testing in Eye Health Maps:** Published paper under Ms. Bhavisha Virendra (Sightsavers) on "*Testing Usability of the Eye Health EG Maps*" — **Journal of Usability Studies (JUS)**.
- **Semantic Web Engineering:** Published paper under Prof. Balasubramaniam V. (SCOPE, VIT University) on "*Semantic Web*" — **IEEE Potentials Magazine (Undergraduate Edition)**.
